## Iona College General Transport Information

Iona College currently operates 22 private buses through McHarry's Bus Lines, providing exclusive transport for our students. These buses service direct routes to and from the College, connecting coastal areas such as Ocean Grove, Barwon Heads, Jan Juc, and Torquay, as well as most inner-Geelong suburbs. Additionally, students from outer suburbs can be picked up or dropped off at designated interchange points within Geelong or at the Geelong Railway Station.

For information on the transport options available to your child, please refer to the list of locations below.

### **How Do Parents/Carers Apply for A Position on An Iona College Bus For Their Young People?**

Parents/Carers must nominate 'Bus' as a mode of transport for their Young People within the Enrolment Application form.

### **How Are Bus Routes Determined?**

Bus routes are developed by McHarry's Bus Lines based on the residential addresses of students whose parents or carers have accepted an offer of enrolment at Iona College and selected 'Bus' as the preferred mode of transport on the Enrolment Application form.

Route mapping is a complex process, and it's important to note that Iona College bus routes may differ significantly from public bus routes. Our stop points are typically designed to serve groups of students, rather than catering to the needs of each individual student.

Please note: Bus routes and stop points are subject to change. Parents and carers, as well as students, should be aware that routes and bus allocations may vary from year to year due to changes in student addresses (such as new students joining or existing students leaving). As such, copies of the current bus routes will not be provided to parents or carers during the Open Day and enrolment application period.

### **When Are Bus Routes and Student Allocations Announced?**

Parents/Carers will be notified of their young person's bus route allocation(s) by email (usually) by the end of the first week of December.

### **What Does Iona College Charge for Their Buses?**

The Iona College (privately chartered) Bus Service is a fixed cost amount regardless of where a student resides and how often the service is used. Iona College operates a two-tiered bus fee structure in recognition of the higher cost (and longer distances) associated with students travelling on seat-belted buses to the Bellarine and Surf Coast areas (Tier 1 buses). All other buses are regarded as Tier 2 buses.

Scheduled bus fees for 2025 are as follows and would be expected to increase in most years:

Tier 1	-	\$627 per student
Tier 2	-	\$537 per student
